

# Assignment 3: Representing Relationships

Student Name: Xiaoyi Yu

Student ID: 1663782

## 1. System Display

## 2. System Features

1. Users can zoom in/out using the +/- buttons or mouse wheel
2. Users can identify gender through color coding:
  - Blue nodes represent male family members
  - Pink nodes represent female family members
  - Gray nodes indicate deceased members
  - Green nodes indicate members not yet born (relative to selected year)
3. Users can drag the timeline slider to observe family members' survival status
  - Active range: 1800-2024

- Members who died before the selected year appear in gray
4. Users can filter family members by location using the dropdown menu:
    - All Locations
    - Taranaki
    - Australia
    - United Kingdom
  5. Users can search for specific family members using the search box
    - Real-time filtering as you type
    - Highlights matching members
  6. Users can click on any family member to:
    - Highlight direct relationships
    - Show parents and children
    - Identify siblings and cousins
  7. Users can hover over nodes to view detailed information:
    - Full name
    - Birth year
    - Death year (if applicable)
    - Current location
  8. Users can pan the visualization by clicking and dragging
    - Reset button returns to default view
    - zoom level during panning

### 3. Example Demonstrations

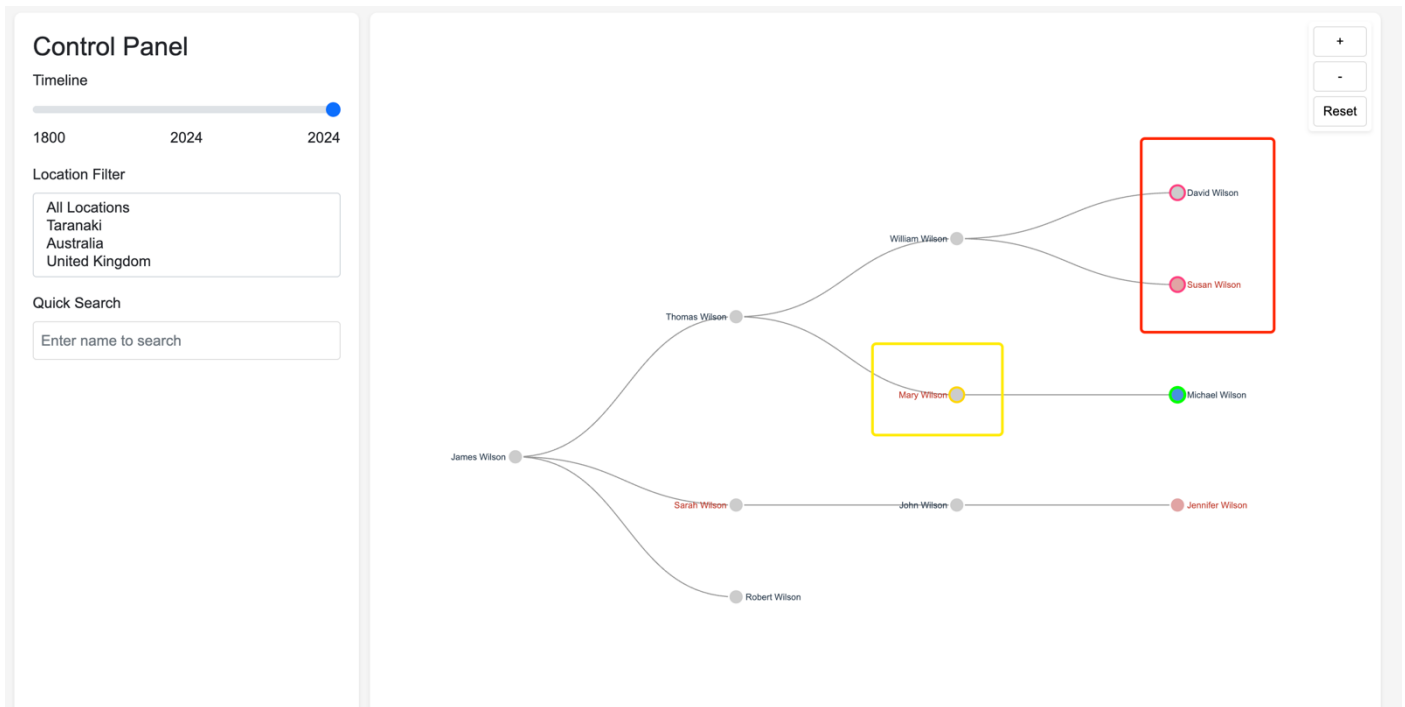

1. "Show me all of the first cousins of X"

Example using Michael Wilson:

Click on Michael Wilson's node

System highlights:

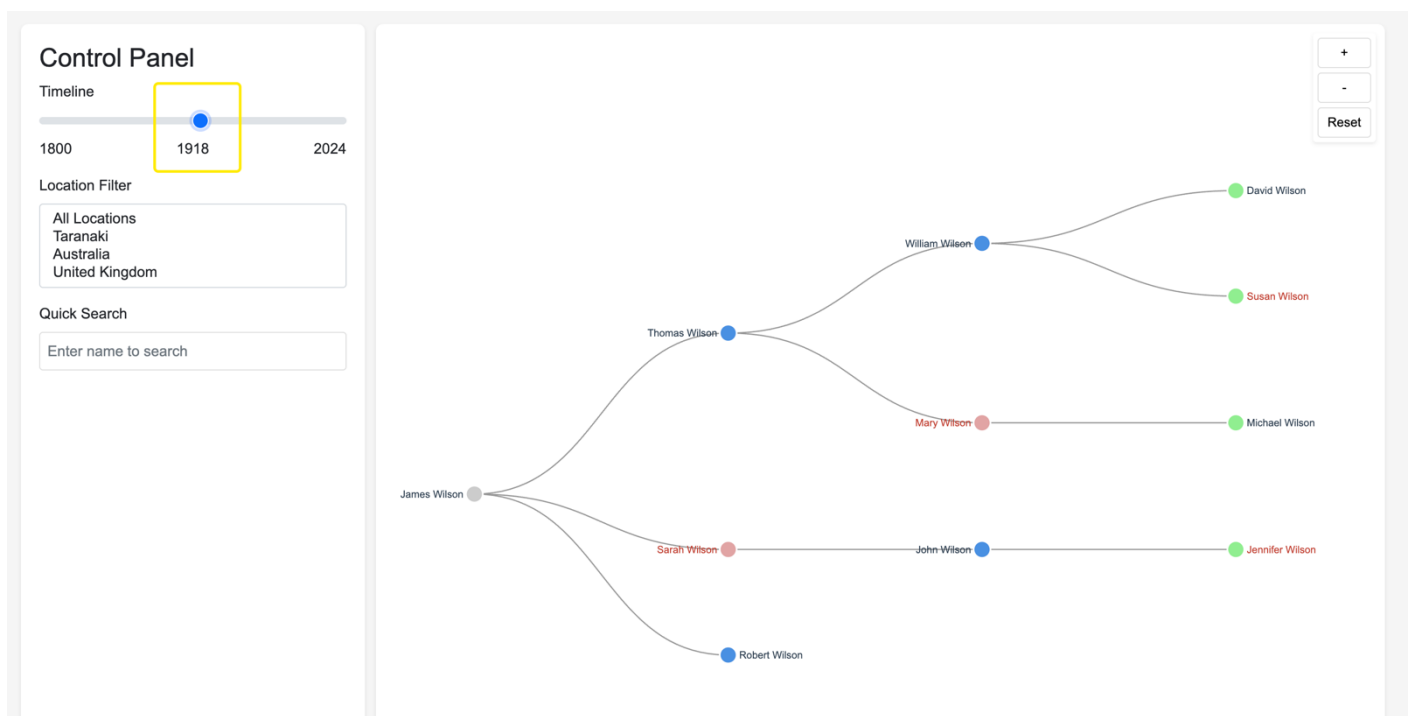

- His parent (Mary Wilson)
- His cousins:
  - David Wilson
  - Susan Wilson
  - Jennifer Wilson

2. "Which members of the family were living during the 1914-18 war?"

• Steps:

- Move timeline slider to 1914
- Observe colored (living) nodes:
  - Thomas Wilson (1880-1940)
  - Sarah Wilson (1882-1950)
  - Robert Wilson (1885-1960)
  - Elizabeth Brown (1905-1980)
  - William Wilson (1910-1970)
  - Mary Wilson (1912-1990)
  - John Wilson (1915-2000)

3. "Which members of the family ever lived in Taranaki?"

- Steps:

- Select "Taranaki" from location filter

- System highlights:

- James Wilson (1850-1910)
- Robert Wilson (1885-1960)
- John Wilson (1915-2000)
- Michael Wilson (1945-)

4. "Does X have any cousins in Australia?"

Example using Michael Wilson:

- Click on Michael Wilson's node
- Select "Australia" from location filter

- System shows:

His cousin David Wilson lives in Australia

Relationship path:

Michael Wilson → Mary Wilson (mother) → Thomas Wilson (grandfather) → William Wilson (uncle) → David Wilson (cousin)
